

JOB DESCRIPTION – Full Stack Web Developer

General & Medical are looking for an individual with drive and determination to succeed in a busy developer environment. Working on a scheme of ongoing improvements within a well-established Insurance Company, you will have the opportunity to develop new skills and apply your knowledge across our business systems.

MAIN DUTIES AND RESPONSIBILITIES OF THE POST

jobs@generalandmedical.com

- Develop and enhance our in-house CRM system written in C# and SQL Server.
- Support business activities ensuring the integration of our websites and API with the CRM.
- Support the Management as required, in accordance with identified priorities.
- Work to tight deadlines in a fast paced development environment.
- Program testing to ensure that developments are installed into the live system without causing disruption to End Users.
- Be able to work on multiple projects.
- Contribute to team discussions and help identify areas where systems and processes could be improved.
- Support staff with software related issues and assist in training on any new system designs.
- Support staff in the use of various software packages e.g. MS Office.
- Be familiar with company products and services.

Skills and Experience Required

- Proven experience in .Net Development (ASP.Net & C#)
- Sound grasp of object oriented programming
- React / .NET Core / Razor Pages / Agile
- Entity Framework
- SQL Server (database design / stored procedures / optimisation)
- Dev Ops
- MVC
- Familiarity with HTML5 / CSS3 / Bootstrap 4
- Visual Studio
- JavaScript & JQuery
- Web Forms
- Full project life cycle software development
